

COURT SUSPENDS
RAILWAY RATES

Commerce Tribunal Acts on Spokane Reductions.

INJUNCTION IS TEMPORARY

Order Suspend Interstate Commerce Commission Decision Putting in Effect Lower Tariffs on Transcontinental Lines, Which Would Have Become Effective Next Wednesday. Court Will Inquire Into Facts.

Washington, Nov. 10.—Expected reduction of transcontinental railroad freight rates was held up when the court of commerce granted a temporary injunction against the order of the interstate commerce commission in what are known as the Spokane and other Pacific coast points rate cases. The order was made June 22 and was to have become effective next Wednesday.

The cases involve not only the "back haul" freight rates from Spokane and other intermountain points to Pacific coast terminals, but also the application of the long and short haul provision of the existing law. The order of the commission, particularly in the Reno case, laid down the principles to be followed by the commission.

The effect of the commission's order was to reduce the freight rates from Atlantic seaboard points to intermountain points. In the reduction the commission recognized the effect of water competition on the Pacific coast, but held substantially that the rates from the East to cities like Spokane and Reno should be lower than the existing rates.

The transcontinental railways appealed to the commerce court, maintaining that the order was practically confiscatory.

The court issued the order granting the preliminary injunction and suspending the operation of the order issued by the commission. The court's finding leaves the transcontinental freight structure as it is at present.

In the opinion of members of the interstate commerce commission the most important feature of the injunction is the court's questioning of the commission's action respecting the long and short haul provision of the existing law. The intimation given by the court is that it proposes to make an investigation of the facts on which the order of the commission was based in order to determine for itself a basis for a final order.

TWO KILLED IN COLLISION

Canadian Pacific Fireman and Brakeman Victims of Accident.

Winnipeg, Nov. 10.—Fireman Bishop of Calgary and Brakeman Beggs of Medicine Hat were killed at Red Cliffe, Alta., when their train, the Seaboard freight, crashed into a way freight, also westbound. The wreck was one of the worst that has occurred on the Canadian Pacific railway in some time. The way freight was switching at Red Cliffe and the caboose and a number of cars were standing on the main line when the Seaboard approached from the west at a high rate of speed and plowed through the caboose and cars and also broadsided a number of other cars and struck the engine.

The brakeman jumped and struck the cars in the siding and was instantly killed. The fireman also jumped and was caught in the wreck and he was badly mangled.

FIND SIX BODIES IN MINE

Rescue Party Searching for Two More Probable Victims.

Punxsutawney, Pa., Nov. 10.—Six bodies of miners were recovered from the burning Adrian shaft of the Rochester and Pittsburgh Coal and Iron company by rescue crews from the government's bureau of mines station at Pittsburgh.

The rescue crew with eight miners equipped with oxygen helmets started into the gas laden mine about midnight. The discovery of the bodies was telephoned to the mine mouth, but the two other bodies had not been found.

Engineer J. T. Ryan, in charge of the rescue crew, would not express an opinion as to the cause of the accident.

DEMANDS \$100,000 FOR LIBEL.

Nowata, Okla., Nov. 10.—Ossian Cameron, a Chicago lawyer and capitalist, has filed suit against S. C. Henderson of New York, president of the Salupah Oil company, for \$100,000 for libel. Cameron alleges that Henderson wrote a letter saying that he (Cameron) is a crook and unworthy of belief. The letter, the suit alleges, was given wide circulation.

SLAYS WIFE; WOUNDS SELF

Duluth Dock Laborer Jealous of Helpmeet, the Police Say.

Duluth, Nov. 10.—August Boo, forty-eight years old, a dock laborer, slashed his wife's throat from ear to ear, killing her almost instantly. He then cut his own throat, but missed the jugular vein and may recover. Jealousy, according to the police, is the reason for the tragedy.

SCORE MOROCCO-
CONGO TREATIES

German Lawmakers Criticize Chancellor's Course.

RESENTFUL TOWARD BRITAIN

Speakers of the Four Leading Parties Attack Agreement With France and Indulge in Bitter Criticism of England—Chancellor's Speech in Explaining Action Taken Falls Flat.

Berlin, Nov. 10.—That Chancellor von Bethmann-Hollweg's position is badly shaken is the only possible verdict on the debate in the reichstag on the Morocco-Congo treaties. After his speech had fallen flat speakers of the four leading parties, Conservatives, Clericals, Liberals and Socialists, successively attacked his arguments and vied with each other in criticizing the agreement.

Chancellor von Bethmann-Hollweg appeared before a hostile house to defend the Morocco-Congo agreement and exhausted his skill in explaining the great advantages of a friendly settlement with France to the future value of colonial acquisitions and to disprove the reports that Germany had backed down before British menace.

He was, however, allowed to finish with scarcely a sign of applause in approval. The crown prince, whose publicly reported disapproval of the Franco-German agreement has not been denied, appeared in the royal box with Prince August Wilhelm.

After relating the representations made by Germany to Great Britain relative to the speech made by David Lloyd-George at a banquet given by the bankers of London July 21 last, and to Anglo-French newspaper insinuations and the belligerency of the German people as a result of Mr. Lloyd-George's remarks, the German chancellor declared:

Would Avoid Useless War.

"Nobody can tell whether war sometime will come, but my duty is to act that war which is avoidable and not demanded by the honor of Germany must be avoided."

This statement called forth general applause.

The Franco-German crisis, the chancellor said, was so acute on approaching final settlement that, ending peacefully, it was worth more than all discussions on arbitration and disarmament. Then, summing up the advantages of the agreement, he concluded:

"I expect no praise and fear no blame."

Herr von Bebel, Socialist leader in the reichstag, made a violent attack upon the chancellor and the foreign secretary, Herr von Kiderlin-Waechter, and in denunciation of the Morocco-Congo agreement.

The debate called out many sharp attacks upon England, which were greeted with applause. The chief attack was made by Herr von Heydebrand and was astonishingly bellicose. Referring to Chancellor Lloyd-George's well remembered speech he said that Germany now knows where to find the enemy.

"Germans," he continued, "are not accustomed to submit to such things. The German people will give a German answer to this English question. The government will know what answer to give when the hour comes. When it comes it is for the government to say, but its duty is to decide for the honor of the German nation. We Germans will be ready to make whatever sacrifices are necessary."

A great commotion ensued at the conclusion of Herr von Heydebrand's speech.

BRITISH VIEW EXPLAINED

Asquith Says Moroccan Agreement Removes Obstacles.

London, Nov. 10.—A new lord mayor of London, Sir Thomas Boor Crosby, M. D., was inducted into office at the lord mayor's banquet. Premier Asquith made his fourth successive speech in honor of such occasion.

The prime minister gave a clear exposition of Great Britain's foreign policy. The Moroccan agreement was the topic and it furnished a special opportunity, the premier's remarks coming opportunely as a reply to the speech of the Imperial German chancellor in the reichstag.

"The settlement of the question involved," he said, "is a relief to Europe, for it removes perhaps the greatest obstacle to the smooth working of European diplomacy. Our own gratification at the results is none the less profound and sincere because we have been suspected in irresponsible quarters of looking coldly upon the negotiations and even of a disposition to hamper their success. Nothing can be further from the truth."

TRUST MAY ESCAPE SUIT

International Harvester Company Contemplates Dissolution.

Washington, Nov. 10.—The voluntary dissolution of the International Harvester company, the so called harvester "trust," to meet the terms of the Sherman anti-trust law, which has been the subject of negotiations for some time, was discussed at the department of justice.

Attorney General Wickersham and Assistant to the Attorney General Fowler, on behalf of the federal government, and Edgar A. Bancroft, general counsel, and John P. Wilson, representatives of the corporation, were closeted for several hours. It was declared that no conclusion had been reached and that another meeting would be held within a few days. The fact that negotiations have not been terminated is taken to mean that there is a likelihood of an agreement between the government and the corporation, precluding any possibility of an anti-trust suit.

CORNER VIOLATES
SHERMAN STATUTE

Government Makes New Point Before Supreme Court.

Washington, Nov. 10.—For the first time the government asks the supreme court of the United States to proclaim as the law of the land that "running a corner" on a stock exchange is a violation of the Sherman anti-trust act.

The point came up in the oral argument of Solicitor General Lehmann in support of the indictment of James A. Patton, Eugene G. Scates, Frank B. Hayne and William P. Brown on charges of conspiracy on Jan. 1, 1910, to "run a corner of cotton" on the New York cotton exchange. Essential counts in the indictment had been declared erroneous by the United States circuit court for Southern New York and the government was arguing for a reversal. Former Senator John C. Spooner argued for an affirmance.

Mr. Lehmann urged that the Sherman anti-trust law was not directed against restraint of competition, but against restraint of trade.

The solicitor general admitted the right of a man farsighted enough to see that a commodity was likely to rise in price to go into the market and buy to the extent of his ability. In this case, he added, the defendants had sought to raise the price arbitrarily by linking their purchases together to buy all the cotton for future delivery that would be offered.

Mr. Spooner in reply said the counts had been found bad because they charged no restraint of trade.

GOTCH FINDS CHAMPION EASY

Canada's Best Wrestler No Match for World Title Holder.

Calgary, Alta., Nov. 10.—Frank Gotch, world's champion grappler, made his first appearance in this city in an exhibition match with Canada's amateur champion, W. Martland, the man who is to represent Alberta in the Canadian amateur championships next year. Gotch made short work of the local man, lifting him high in the air just after the referee called time, and then snapped the hammerlock on him and pinned him to the mat. Martland was forced to yell for mercy before he could get square on his back.

THREE DIE IN IOWA FIRE.

Sioux City, Ia., Nov. 10.—Kerosene poured on a fire to hasten breakfast caused an explosion in the home of John Davis, a farmer southeast of here, resulting in the death of Mrs. Davis, her three-months-old baby boy and Mrs. Lucinda Hodge, Mrs. Davis' aunt.

SEE SENTENCED TO PRISON.

Chicago, Nov. 10.—Evelyn Arthur See, founder of the Absolute Life cult, who was convicted of contributing to the delinquency of Mildred Bridges, a juvenile disciple of the cult, was sentenced to prison for one to five years.

DEPARTMENTS
SORE ON PROBE

They Object to the Methods of Cleveland Commission.

THINK IT IS TOO OFFICIOUS.

It Tells Them How to Run Their Affairs—Lodge Can't Court Popularity. He Has Tried It and Knows—Why Taft Supported Dr. Wiley—West Virginia Republicans Bound to Win.

By ARTHUR W. DUNN.

Washington, Nov. 10.—[Special.]—Trouble of a minor sort, but yet trouble enough to any president, awaits Mr. Taft's return in the shape of complaint against the so called Cleveland commission. This is a commission that was appointed to reform the business methods of the different departments. It is true that when the Taft reform began to get under way all departments began seeking reform methods, and each was going ahead in its own way.

Then this commission was appointed, with just what powers no one can say, and it has made investigations. More than that, it has told the different heads of departments and bureaus "do this and so; do this in this way" and given such other peremptory orders. Naturally there is a very strong complaint. It amounts to a roar among the men in the departments, but whether it will be as emphatic when the president returns no one can say.

Going Too Far.

The claim is made that the Cleveland commission is going too far. It is said that cabinet officers object. They could no doubt approach the president with complaints, but it is doubtful if Mr. Taft would care to entertain complaints by underlings against men he selected with so much care and who seem to have suited him very well.

In the early stages of its existence the Cleveland commission had its offices at the White House. It began to crowd. The private senatorial room was taken, then a cabinet room, then a reception room for distinguished visitors. Then Secretary Hilles said "Move!" and the commission sought other quarters, but did not relax its dictatorial policy in the departments. And another care is laid at the president's door against his return from western wanderings.

Lodge Can't Change.

One of Senator Lodge's friends in the senate who wanted the Massachusetts senator to become more popular among his fellow senators expostulated with him thus: "Lodge, you are a better fellow than you seem. I like you, and there are a lot of fellows here who want to like you. Why don't you shake hands with people? Why aren't you glad to see people? I like them. I like to shake hands with them. I want them to like me. Can't you do the same?"

Shaking his head, Lodge replied: "I know just what you mean. I'd like to be just as you are, and I have tried, but I can't. It is simply not in me. I have had to suffer criticism on account of what men think I could remedy, but I don't know how to do those things which make men personally popular."

Why Wiley Was Vindicated.

Generally speaking, it may be said that Dr. Wiley was vindicated by President Taft because the facts justified it. "That is true so far as it goes," remarked a man who claimed to know many things, "but the vindication was hurried because certain organizations had printed and prepared to circulate in every town the president visited a lot of handbills denouncing the treatment of Wiley and demanding his vindication. All that was cut off by the president's action before starting west."

Photograph Wanted.

There has been a deal of complaint because Secretary Meyer has not only recommended the abandonment but has actually abandoned navy yards in the southern states. I would like to have a photograph of the Maine and New Hampshire delegations thinking out loud if Meyer should recommend the abandonment of the Portsmouth (N. H.) yard, which is also a Maine institution. He may do it, for the Boston yard is only sixty-one miles distant.

MacVeagh's Methods.

Secretary MacVeagh devoted much time in the treasury to working out reforms and economies, and then he spent the money he saved in remodeling and improving the building, which had not been changed since the days of Andrew Jackson. The treasury has now become quite a showy sort of a building.

It Must Be So.

Those West Virginia Republicans won't have it any other way than that Taft is surely going to carry their state next year. It has got to be, for in no other way can they hold it from the Democrats. And it is asserted that if the Democrats ever get control of both branches of the legislature they will put through legislation which will make the state solidly Democratic for many years to come.

Most important will be a law disfranchising the negroes, from whom the Republicans get about 25,000 votes, a mighty help in a close campaign. And so the West Virginia Republicans frequently drop in here and assert that Taft is going to carry their state next year.

An Inference.

W. H. EDWARDS.
Striking Garbage Men Mob Gotham Street Commissioner.

EDWARDS ROUGHLY HANDLED

New York Athletic Official "Downed" by Garbage Collectors.

New York, Nov. 10.—Big Bill Edwards, street commissioner, who went through many a scrimmage as a Princeton football star, sought to break through the line of 2,500 striking garbage collectors and was promptly "downed."

With thirty strikebreakers and a squad of policemen as "interference" Edwards tried to move some of the garbage carts idle because the men refuse to do night work, but met with riotous treatment from strikers or their sympathizers. Four policemen were knocked down and the strikebreakers put to rout. Efforts to move garbage were abandoned.

BECAUSE OF ALLEGED
ERRONEOUS SURVEY

Northern Pacific Loses Land Valued at \$3,000,000.

Spokane, Wash., Nov. 10.—Patents to 297,000 acres of Yakima reservation land, valued at approximately \$3,000,000 and not included in the present boundary of the reserves, which was erroneously granted to the Northern Pacific railway many years ago, have been canceled by the United States circuit court of appeals. All this land will revert to the Indians.

The suit was originally started in January, 1907, to cancel the patent because of an alleged erroneous survey.

CALLS OUT BOILERMAKERS

Union Declares Strike Against American Locomotive Company.

Dunkirk, N. Y., Nov. 10.—J. A. Franklin of Kansas City, president of the International Boilermakers and Helpers' union, officially declared a strike against all the plants of the American Locomotive company. About 2,500 men at Dunkirk, Schenectady, Richmond, Pittsburg and Montreal will be affected.

The boilermakers at the Dunkirk plant have not worked for several weeks. They refused to do work on engines from the New York Central system, where the boilermakers have been on strike since last February, and the officials thereupon closed the plant here.

MR. BRYAN "CALLS" TAFT

Asks President Why Trust Officials Are Not Criminally Prosecuted.

Lincoln, Neb., Nov. 10.—In double-leaded type, William J. Bryan demands through the Commoner that President Taft go after violators of the Sherman anti-trust law with a jail sentence.

"It will be noticed," said the editorial, "that the penitentiary term in the statute is only one year. Compare that with the punishment for horse stealing in various states and see how much more tenderly the law deals with the trust magnate who plunders a nation and the man who steals a horse."

MOOSE HUNTER IS KILLED

Mistaken for Game and Companion Dangerously Wounded.

Duluth, Nov. 10.—John Redmark of Deer River, Minn., was instantly killed and his companion, Charles Lindahl, dangerously wounded while hunting at Bowstring lake, twelve miles from Deer River.

The men had killed a moose and were dressing it when fired upon by a party of unidentified hunters, who mistook the men for big game. Lindahl was taken to a hospital at Grand Rapids and the body of his companion to a morgue at the same place.

Wisconsin Millionaire Recently Convicted of Smuggling.

Chicago, Nov. 10.—Nathan Allen, Kenosha (Wis.) millionaire, who paid a fine of \$12,000 for smuggling jewels into this country for his "affinity," Helen Dwell Field Jenkins, and who afterwards was compelled to forfeit \$150,000 to the government, has expatriated himself.

Allen and the Allen family have set sail for Europe. Allen is convinced that the United States gave him a "raw deal" in the Jenkins matter. In retaliation he intends to spend on the continent the millions he made here in the leather business.

STRIKE IS UP TO UNIONS

Rock Island Shopmen May Fight for Federation Recognition.

Chicago, Nov. 10.—Whether the shop employees of the Rock Island road will join the ranks of men now striking for recognition of the system's federation plan is now up to officials of the five unions involved. At a conference between the employees and railroad officials a final statement of the road's proposition was given the men. While this was not made public it was reported generally that the railroad reiterated its purpose not to deal with the federation.

ANOTHER ALLEGED VICIM.

Chicago, Nov. 10.—Circumstances which accompanied the death of Jayson Rupper, a railroad fireman, on Jan. 17, 1910, has convinced the police that his name belongs in the list of alleged victims of Mrs. Louise Vermlay, now held in the county jail charged with the death of Arthur Biszette.

STORM IN WESTERN CANADA

Snow and Cold Interfere With Threshing Operations.

Winnipeg, Nov. 10.—A heavy fall of snow is reported from all three prairie provinces. It was 12 degrees below zero at Melville, Sask., and the snow has retarded all threshing, making the outlook for farmers gloomy. It has snowed for two days at many points and 50 to 60 per cent of the grain is yet unthreshed in Alberta and Saskatchewan.

NORTH MINNESOTA IS HIT.

Barnesville, Minn., Nov. 10.—A wind and sleet storm, which appears to be increasing in volume, struck this city. It was accompanied by a fall in temperature. The storm is reported to be general.

WIND AND SNOW AT FARGO.

Fargo, N. D., Nov. 10.—The snow storm which is sweeping over the West hit Fargo. Two inches of snow is on the ground and a strong wind is blowing. The snow is drifting.

MONTANA STORM SWEEP.

Missoula, Mont., Nov. 10.—Following a storm which swept over this immediate section the temperature has steadily lowered until it is hovering near the zero mark. The wind attained a high velocity.

TWO FEET OF SNOW AT EUREKA.

Eureka, Mont., Nov. 10.—The snow storm covers the whole valley and it is still snowing. Snow has fallen to the depth of more than two feet and trains are delayed. The fall is unprecedented, as snow rarely falls here until January and sometimes as late as February.

Forbidden City Filled With Princes and High Officials.

PREPARED FOR LONG SIEGE

Vast Stores of Provisions Laid in and Place Is Strongly Guarded—Active Preparations Going on to Meet Inevitable Assault—Conceded Manchu Dynasty Will Be Ousted.

Peking, Nov. 10.—Peking is still awaiting the approach of the rebels. The Forbidden City is filled with princes, high officials and others who are entitled to entry within its gates. Vast stores of provisions have been transported to that place, which, strongly guarded, is ready for a siege.

Active preparations for what is considered the inevitable assault upon the capital are going on within the legation quarter, for it is now conceded that the Manchu dynasty will be ousted. Foreigners, it is asserted, will be fully protected, but experiences have taught that the temper of the people is not to be trusted when revolutionary movements are in progress.

The fact that Tientsin did not fall, as was expected, is a hopeful sign, because it indicates that whatever steps the revolutionaries are taking in the north at least they are proceeding along careful lines and are acting with consideration and without haste.

At Nanking, where the revolutionists outnumber the imperialists five to one, the latter still hold Purple Mountain. They are strongly entrenched and are said to have abundant supplies.

DANGER FROM ROBBER BANDS.

A wireless dispatch has been received from the American consul, Edward C. Baker, who has arrived at Hankow from Ichang. The consul states that the customs and other foreign officials are leaving Chungking, in Szechuen province, from which place the British consul sends reports that the situation is critical. The road between Ichang and Chungking is unsafe and there is danger from robber bands.

An American, who is in close touch with the Tientsin rebels, says they are divided into two factions. The conservative faction probably will control and wait until there is a material force behind them before taking over the city. At present only 2,500 police within the city support the rebels.

The fact that General Wu Lu Cheng's head was carried away after his assassination a few nights ago has caused the belief in certain quarters that a reward has been offered for it. It is rumored that the head has been brought to the Forbidden City, but the story evidently has been invented by the rebels, who hope to prove the palace's complicity in the murder.

NEW MEXICO IS DEMOCRATIC

Republicans Concede Governor and State Ticket.

Albuquerque, N. M., Nov. 10.—Although returns from New Mexico's state election of Tuesday are incomplete the Republican state central committee conceded the election of McDonald, Democrat, for governor by a majority of 2,000. Returns thus far received indicate the election of the entire Democratic state ticket and two Democratic representatives.

The complexion of the legislature, which will elect two United States senators, remains in doubt, but it is now believed that the Republicans will have a majority of ten on joint ballot.

\$800,000 FIRE IN CHICAGO

Blaze in Kerosene Supply Destroys Plant of Flour Mill Company.

Chicago, Nov. 10.—Fire destroyed the plant of the Chicago Flour Mills company, causing a loss of about \$800,000. The mill proper, two brick storage warehouses filled with flour and a four-story grain elevator partly filled with wheat were destroyed.

The fire started on the storage floor of the wooden elevator near a quantity of kerosene used for lighting purposes. Its spread was rapid and the flames burned so fiercely the firemen could not check them.

ORIGIN OF "PANTS."

The words breeches, trousers and pantaloons are now used interchangeably, but originally the significations were quite different. Pantaloons were at first nothing but long stockings worn in Italy as a sort of religious habit by the devotees of St. Pantaleon. Breeches originally reached from the waist half way to the knee and finally to the knee, where they were fastened with a buckle. Trousers are the present style of leg gear, a combination of the former two.

MANIC THROWS SELF INTO FURNACE.

Marshfield, Wis., Nov. 10.—Frank Giesinger, twenty-three years old, a patient at the Wood county asylum for the chronic insane, committed suicide by throwing himself head first into the "firebox" under the asylum boiler. He suffered from a delusion that he was a divine being and was hunting for Methuselah.

COURT SUSPENDS
RAILWAY RATES

Commerce Tribunal Acts on Spokane Reductions.

INJUNCTION IS TEMPORARY

Order Suspend Interstate Commerce Commission Decision Putting in Effect Lower Tariffs on Transcontinental Lines, Which Would Have Become Effective Next Wednesday. Court Will Inquire Into Facts.

Washington, Nov. 10.—Expected reduction of transcontinental railroad freight rates was held up when the court of commerce granted a temporary injunction against the order of the interstate commerce commission in what are known as the Spokane and other Pacific coast points rate cases. The order was made June 22 and was to have become effective next Wednesday.

The cases involve not only the "back haul" freight rates from Spokane and other intermountain points to Pacific coast terminals, but also the application of the long and short haul provision of the existing law. The order of the commission, particularly in the Reno case, laid down the principles to be followed by the commission. The effect of the commission's order was to reduce the freight rates from Atlantic seaboard points to intermountain points, and to reduce the rates from the Pacific coast, but held substantially that the rates from the East to cities like Spokane and Reno should be lower than the existing rates.

The transcontinental railways appealed to the commerce court, maintaining that the order was practically confiscatory.

The court issued the order granting the preliminary injunction and suspending the operation of the order issued by the commission. The court's finding leaves the transcontinental freight structure as it is at present.

In the opinion of members of the interstate commerce commission the most important feature of the injunction is the court's questioning of the commission's action respecting the long and short haul provision of the existing law. The injunction given by the court is that it proposes to make an investigation of the facts on which the order of the commission was based in order to determine for itself a basis for a final order.

TWO KILLED IN COLLISION

Canadian Pacific Fireman and Brakeman Victims of Accident.

Winnipeg, Nov. 10.—Fireman Bishop of Calgary and Brakeman Beggs of Medicine Hat were killed at Red Cliffs, Alta., when their train, the Seaboard freight, crashed into a way freight, also westbound. The wreck was one of the worst that has occurred on the Canadian Pacific railway in some time. The way freight was switching at Red Cliffs and the caboose and a number of cars were standing on the main line when the Seaboard approached from the west at a high rate of speed and plowed through the caboose and cars and also broadsided a number of other cars and struck the engine.

The brakeman jumped and struck the cars in the siding and was instantly killed. The fireman also jumped and was caught in the wreck and he was badly mangled.

FIND SIX BODIES IN MINE

Rescue Party Searching for Two More Probable Victims.

Punxsutawney, Pa., Nov. 10.—Six bodies of miners were recovered from the burning Adrian shaft of the Rochester and Pittsburgh Coal and Iron company by rescue crews from the government's bureau of mines station at Pittsburgh.

The rescue crew with eight miners equipped with oxygen helmets started into the gas laden mine about midnight. The discovery of the bodies was telephoned to the mine mouth, but the two other bodies had not been found.

Engineer J. T. Ryan, in charge of the rescue crew, would not express an opinion as to the cause of the accident.

Demands \$100,000 for Libel.

Nowata, Okla., Nov. 10.—Ossian Cameron, a Chicago lawyer and capitalist, has filed suit against S. C. Henderson of New York, president of the Salupah Oil company, for \$100,000 for libel. Cameron alleges that Henderson wrote a letter saying that he (Cameron) is a crook and unworthy of belief. The letter, the suit alleges, was given wide circulation.

TRUST MAY ESCAPE SUIT

International Harvester Company Contemplates Dissolution.

Washington, Nov. 10.—The voluntary dissolution of the International Harvester company, the so called harvester "trust," to meet the terms of the Sherman anti-trust law, which has been the subject of negotiations for some time, was discussed at the department of justice.

Attorney General Wickersham and Assistant to the Attorney General Fowler, on behalf of the federal government, and Edgar A. Bancroft, general counsel, and John P. Wilson, representatives of the corporation, were closeted for several hours. It was declared that no conclusion had been reached and that another meeting would be held within a few days. The fact that negotiations have not been terminated is taken to mean the there is a likelihood of an agreement between the government and the corporation, precluding any possibility of an anti-trust suit.

CORNER VIOLATES
SHERMAN STATUTE

Government Makes New Point Before Supreme Court.

Washington, Nov. 10.—For the first time the government asks the supreme court of the United States to proclaim as the law of the land that "running a corner" on a stock exchange is a violation of the Sherman anti-trust act.

The point came up in the oral argument of Solicitor General Lehmann in support of the indictment of James A. Patton, Eugene G. Scates, Frank B. Hayne and William P. Brown on charges of conspiracy on Jan. 1, 1910, to "run a corner of cotton" on the New York cotton exchange. Essential counts in the indictment had been declared erroneous by the United States circuit court for Southern New York and the government was arguing for a reversal. Former Senator John C. Spooner argued for an affirmation.

Mr. Lehmann urged that the Sherman anti-trust law was not directed against restraint of competition, but against restraint of trade.

The solicitor general admitted the right of a man farighted enough to see that a commodity was likely to rise in price to go into the market and buy to the extent of his ability. In this case, he added, the defendants had sought to raise the price arbitrarily by linking their purchases together to buy all the cotton for future delivery that would be offered.

Mr. Spooner in reply said the counts had been found bad because they charged no restraint of trade.

GOTCH FINDS CHAMPION EASY

Canada's Best Wrestler No Match for World Title Holder.

Calgary, Alta., Nov. 10.—Frank Gotch, world's champion grappler, made his first appearance in this city in an exhibition match with Canada's amateur champion, W. Martland, the man who is to represent Alberta in the Canadian amateur championships next year. Gotch made short work of the local man, lifting him high in the air just after the referee called time and then snapped the hammerlock on him and pinned him to the mat. Martland was forced to yell for mercy before he could get square on his back.

Three Die in Iowa Fire.

Sioux City, Ia., Nov. 10.—Kerosene poured on a fire to hasten breakfast caused an explosion in the home of John Davis, a farmer southeast of here, resulting in the death of Mrs. Davis, her three-months-old baby boy and Mrs. Lucinda Hodge, Mrs. Davis' aunt.

See Sentenced to Prison.

Chicago, Nov. 10.—Evelyn Arthur See, founder of the Absolute Life cult, who was convicted of contributing to the delinquency of Mildred Bridges, a juvenile disciple of the cult, was sentenced to prison for from one to five years.

Woman Aged 102 Registers.

Santa Rosa, Cal., Nov. 10.—Mrs. Electa Kennedy drove here from her home in Healdsburg and registered as a voter at the county clerk's office, putting down her age as 102 years.

DEPARTMENTS
SORE ON PROBE

They Object to the Methods of Cleveland Commission.

THINK IT IS TOO OFFICIOUS.

It Tells Them How to Run Their Affairs—Lodge Can't Court Popularity. He Has Tried It and Knows—Why Taft Supported Dr. Wiley—West Virginia Republicans Bound to Win.

By ARTHUR W. DUNN.

Washington, Nov. 10.—[Special.]—Trouble of a minor sort, yet trouble enough to any president, awaits Mr. Taft's return in the shape of complaint against the so called Cleveland commission. This is a commission that was appointed to reform the business methods of the different departments. It is true that when the Taft reform began to get under way all departments began seeking reform methods, and each was going ahead in its own way.

Then this commission was appointed, with just what powers no one can say, and it has made investigations. More than that, it has told the different heads of departments and bureaus "do this and so; do this in this way" and given such other peremptory orders. Naturally there is a very strong complaint. It amounts to a roar among the men in the departments, but whether it will be as emphatic when the president returns no one can say.

Going Too Far.

The claim is made that the Cleveland commission is going too far. It is said that cabinet officers object. They could no doubt approach the president with complaints, but it is doubtful if Mr. Taft would care to entertain complaints by underlings against men he selected with so much care and who seem to have suited him very well.

In the early stages of its existence the Cleveland commission had its offices at the White House. It began to crowd. The private senatorial room was taken, then a cabinet room, then a reception room for distinguished visitors. Then Secretary Hilles said "Move!" and the commission sought other quarters, but did not relax its dictatorial policy in the departments. And another care is laid at the president's door against his return from western wanderings.

Lodge Can't Change.

One of Senator Lodge's friends in the senate who wanted the Massachusetts senator to become more popular among his fellow senators expostulated with him thus: "Lodge, you are a better fellow than you seem. I like you, and there are a lot of fellows here who want to like you. Why don't you shake hands with people? Why aren't you glad to see people? I like them. I like to shake hands with them. I want them to like me. Can't you do the same?"

Shaking his head, Lodge replied: "I know just what you mean. I'd like to be just as you are, and I have tried, but I can't. It is simply not in me. I have had to suffer criticism on account of what men think I could remedy, but I don't know how to do those things which make men personally popular."

Why Wiley Was Vindicated.

Generally speaking, it may be said that Dr. Wiley was vindicated by President Taft because the facts justified it. "That is true so far as it goes," remarked a man who claimed to know many things, "but the vindication was hurried because certain organizations had printed and prepared to circulate in every town the president visited a lot of handbills denouncing the treatment of Wiley and demanding his vindication. All that was cut off by the president's action before starting west."

Photograph Wanted.

There has been a deal of complaint because Secretary Meyer has not only recommended the abandonment but has actually abandoned navy yards in the southern states. I would like to have a photograph of the Maine and New Hampshire delegations thinking out loud if Meyer should recommend the abandonment of the Portsmouth (N. H.) yard, which is also a Maine institution. He may do it, for the Boston yard is only sixty-one miles distant.

MacVaugh's Methods.

Secretary MacVaugh devoted much time in the treasury to working out reforms and economies, and then he spent the money he saved in remodeling and improving the building, which had not been changed since the days of Andrew Jackson. The treasury has now become quite a showy sort of a building.

It Must Be So.

Those West Virginia Republicans won't have it any other way than that Taft is surely going to carry their state next year. It has got to be, for in no other way can they hold it for the Democrats. And it is asserted that if the Democrats ever get control of both branches of the legislature they will put through legislation which will make the state solidly Democratic for years to come.

Most important will be a law disfranchising the negroes, from whom the Republicans get about 25,000 votes, a mighty help in a close campaign. And so the West Virginia Republicans frequently drop in here and assert that Taft is going to carry their state next year.

An Inference.

Brown—Yes, sir; on next Thursday I will own my own home. Towne—Servant's day out, eh?

W. H. EDWARDS.

Striking Garbage Men Mob Gotham Street Commissioner.

EDWARDS ROUGHLY HANDLED

New York Athletic Official "Downed" by Garbage Collectors.

New York, Nov. 10.—Big Bill Edwards, street commissioner, who went through many a scrimmage as a Princeton football star, sought to break through the line of 2,500 striking garbage collectors and was promptly "downed."

With thirty strikebreakers and a squad of policemen as "interference" Edwards tried to move some of the garbage carts idle because the men refuse to do night work, but met with riotous treatment from strikers or their sympathizers. Four policemen were knocked down and the strikebreakers put to rout. Efforts to move garbage were abandoned.

BECAUSE OF ALLEGED
ERRONEOUS SURVEY

Northern Pacific Loses Land Valued at \$3,000,000.

Spokane, Wash., Nov. 10.—Patents to 297,000 acres of Yakima reservation land, valued at approximately \$3,000,000 and not included in the present boundary of the reserves, which was erroneously granted to the Northern Pacific railway many years ago, have been canceled by the United States circuit court of appeals. All this land will revert to the Indians.

The suit was originally started in January, 1907, to cancel the patent because of an alleged erroneous survey.

CALLS OUT BOILERMAKERS

Union Declares Strike Against American Locomotive Company.

Dunkirk, N. Y., Nov. 10.—J. A. Franklin of Kansas City, president of the International Boilermakers and Helpers' union, officially declared a strike against all the plants of the American Locomotive company. About 2,500 men at Dunkirk, Schenectady, Richmond, Pittsburg and Montreal will be affected.

The boilermakers at the Dunkirk plant have not worked for several weeks. They refused to do work on engines from the New York Central system, where the boilermakers have been on strike since last February, and the officials thereupon closed the plant here.

MR. BRYAN "CALLS" TAFT

Asks President Why Trust Officials Are Not Criminally Prosecuted.

Lincoln, Neb., Nov. 10.—In double-leaded type, William J. Bryan demands through the Commoner that President Taft go after violators of the Sherman anti-trust law with a jail sentence.

"It will be noticed," said the editorial, "that the penitentiary term in the statute is only one year. Compare that with the punishment for horse stealing in various states and see how much more tenderly the law deals with the trust magnate who plunders a nation and the man who steals a horse."

MOOSE HUNTER IS KILLED

Mistaken for Game and Companion Dangerously Wounded.

Duluth, Nov. 10.—John Redmark of Deer River, Minn., was instantly killed and his companion, Charles Lindahl, dangerously wounded while hunting at Bowstring lake, twelve miles from Deer River.

The men had killed a moose and were dressing it when fired upon by a party of unidentified hunters, who mistook the men for big game.

Lindahl was taken to a hospital at Grand Rapids and the body of his companion to a morgue at the same place.

TWO KILLED BY PLAYMATE

Third Girl May Die as Result of Boy's Act.

Nowata, Okla., Nov. 10.—Fred Stanart, twelve years old, playfully pointed a shotgun at three girl companions, all aged seven years, and unintentionally pulled the trigger.

Bergie Nicholas and Madge Stevens fell dead with their heads shot away, and Edith Fisher suffered wounds of which she may die.

INTENDS TO RESIDE ABROAD

Wisconsin Millionaire Recently Convicted of Smuggling.

Chicago, Nov. 10.—Nathan Allen, Kenosha (Wis.) millionaire, who paid a fine of \$12,000 for smuggling jewels into this country for his "affinity," Helen Dwell Field Jenkins, and who afterwards was compelled to forfeit \$150,000 to the government, has expatriated himself.

Allen and the Allen family have set sail for Europe. Allen is convinced that the United States gave him a "raw deal" in the Jenkins matter. In retaliation he intends to spend on the continent the millions he made here in the leather business.

STRIKE IS UP TO UNIONS

Rock Island Shopmen May Fight for Federation Recognition.

Chicago, Nov. 10.—Whether the shop employees of the Rock Island road will join the ranks of men now striking for recognition of the system's federation plan is now up to officials of the five unions involved. At a conference between the employees and railroad officials a final statement of the road's proposition was given the men. While this was not made public it was reported generally that the railroad reiterated its purpose not to deal with the federation.

Another Alleged Victim.

Chicago, Nov. 10.—Circumstances which accompanied the death of Jayson Rupper, a railroad fireman, on Jan. 17, 1910, has convinced the police that his name belongs in the list of alleged victims of Mrs. Louise Vermilya, now held in the county jail charged with the death of Arthur Bonnet.

STORM IN WESTERN CANADA

Snow and Cold Interferes With Threshing Operations.

Winnipeg, Nov. 10.—A heavy fall of snow is reported from all three prairie provinces. It was 12 degrees below zero at Melville, Sask., and the snow has retarded all threshing, making the outlook for farmers gloomy. It has snowed for two days at many points and 50 to 60 per cent of the grain is yet unthreshed in Alberta and Saskatchewan.

Northern Minnesota Is Hit.

Barnesville, Minn., Nov. 10.—A wind and sleet storm, which appears to be increasing in volume, struck this city. It was accompanied by a fall in temperature. The storm is reported to be general.

Wind and Snow at Fargo.

Fargo, N. D., Nov. 10.—The snow storm which is sweeping over the West hit Fargo. Two inches of snow is on the ground and a strong wind is blowing. The snow is drifting.

Montana Storm Swept.

Missoula, Mont., Nov. 10.—Following a storm which swept over this immediate section the temperature has steadily lowered until it is hovering near the zero mark. The wind attained a high velocity.

Two Feet of Snow at Eureka.

Eureka, Mont., Nov. 10.—The snow storm covers the whole valley and it is still snowing. Snow has fallen to the depth of more than two feet and trains are delayed. The fall is unprecedented, as snow rarely falls here until January and sometimes as late as February.

Forbidden City Filled With Princes and High Officials.

PREPARED FOR LONG SIEGE

Vast Stores of Provisions Laid in and Place Is Strongly Guarded—Active Preparations Going on to Meet Inevitable Assault—Conceded Manchurian Dynasty Will Be Ousted.

Peking, Nov. 10.—Peking is still awaiting the approach of the rebels. The Forbidden City is filled with princes, high officials and others who are entitled to entry within its gates. Vast stores of provisions have been transported to that place, which, strongly guarded, is ready for a siege.

Active preparations for what is considered the inevitable assault upon the capital are going on within the legation quarter, for it is now conceded that the Manchurian dynasty will be ousted. Foreigners, it is asserted, will be fully protected, but experiences have taught that the temper of the people is not to be trusted when revolutionary movements are in progress.

The fact that Tientsin did not fall, as was expected, is a hopeful sign, because it indicates that whatever steps the revolutionaries are taking in the north at least they are proceeding along careful lines and are acting with consideration and without haste.

At Nanking, where the revolutionists outnumber the imperialists five to one, the latter still hold Purple Mountain. They are strongly entrenched and are said to have abundant supplies.

Danger From Robber Bands.

A wireless dispatch has been received from the American consul, Edward C. Baker, who has arrived at Hankow from Ichang. The consul states that the customs and other foreign officials are leaving Chungking, in Szechuen province, from which place the British consul sends reports that the situation is critical. The road between Ichang and Chungking is unsafe and there is danger from robber bands.

An American, who is in close touch with the Tientsin rebels, says they are divided into two factions. The conservative faction probably will control and wait until there is a material force behind them before taking over the city. At present only 2,500 police within the city support the rebels.

The fact that General Wu Lu Cheng's head was carried away after his assassination a few nights ago has caused the belief in certain quarters that a reward has been offered for it. It is rumored that the head has been brought to the Forbidden City, but the story evidently has been invented by the rebels, who hope to prove the palace's complicity in the murder.

NEW MEXICO IS DEMOCRATIC

Republicans Concede Governor and State Ticket.

Albuquerque, N. M., Nov. 10.—Although returns from New Mexico's state election of Tuesday are incomplete the Republican state central committee conceded the election of McDonald, Democrat, for governor by a majority of 2,000. Returns thus far received indicate the election of the entire Democratic state ticket and two Democratic representatives.

The complexion of the legislature, which will elect two United States senators, remains in doubt, but it is now believed that the Republicans will have a majority of ten on joint ballot.

\$800,000 FIRE IN CHICAGO

Blaze in Kerosene Supply Destroys Plant of Flour Mill Company.

Chicago, Nov. 10.—Fire destroyed the plant of the Chicago Flour Mills company, causing a loss of about \$800,000. The mill proper, two brick storage warehouses filled with flour and a four-story grain elevator partly filled with wheat were destroyed.

The fire started on the storage floor of the wooden elevator near a quantity of kerosene used for lighting purposes. Its spread was rapid and the flames burned so fiercely the firemen could not check them.

Origin of "Pants."

The words breeches, trousers and pantaloons are now used interchangeably, but originally the significations were quite different. Pantaloons were at first nothing but long stockings worn in Italy as a sort of religious habit by the devotees of St. Pantaleon. Breeches originally reached from the waist half way to the knee and finally to the knee, where they were fastened with a buckle. Trousers are the present style of leg gear, a combination of the former two.

Maniac Throws Self Into Furnace.

Marshfield, Wis., Nov. 10.—Frank Giesinger, twenty-three years old, a patient at the Wood county asylum for the chronic insane, committed suicide by throwing himself head first into the "firebox" under the asylum boiler. He suffered from a delusion that he was a divine being and was hunting for Mephisto.

The Most Extensive Language.
The Chinese is probably the lan-

number of human beings—between
400,000,000 to 500,000,000. The Eng-
lish comes next, with some 175,000,000
to 200,000,000 of patrons; then the
Russian, with pretty nearly 150,000,000.
French and German are nip and
tuck, each being spoken by from 90,000,000 to 100,000,000 of people at home
and in the colonial possessions. The
chances are that English is destined
to become the greatest of all lan-

than any other, and it may yet be the
language of the entire civilized world.

The Most Extensive Language.
The Chinese is probably the lan-
guage that is spoken by the greatest
number of human beings-between
400,000,000 to 500,000,000. The Eng-
lish comes next, with some 175,000,000
to 200,000,000 of patrons; then the
Russian, with pretty nearly 150,000,000.
French and German are nlp and
tuck, each being spoken by from 90-
000,000 to 100,000,000 of people at home
and in the colonial possessions. The
chances are that English is destined
to become the greatest of all lan-
guages. It is advancing more rapidly
than any other, and it may yet be the
language of the entire civilized world.

ASK FOR BETTER MAIL SERVICE

Mining Companies and Business Men
Address Petition to Postmaster
General Hitchcock

STATE FAULTS IN SERVICE

Petitioners Make Suggestions for
Certain Improvements and Ask
They be Enforced

Crosby, Minn., November 10.—
There is being circulated in Crosby
a petition signed by business men re-
garding the present mail facilities
at Crosby, the list of concerns ad-
versely affected thereby and the sug-
gestions for improvement.

All Crosby mail, says the petition,
passes through the postoffice at Deer-
wood, Minn. Mail is distributed at
Crosby 9:30 A. M. and 5 P. M., out-
going mails leave Crosby at 7 A. M.
and 1:30 P. M. All mail comes via
the Northern Pacific railway. A com-
parison of the train schedule shows
that it takes a letter from 15 and
½ hours to 27 hours to go from Deer-
wood to Crosby. In the four in-
stances given this time can be short-
ened from 3½ hours to 27½ hours.

The petitioners represent and
point out that were private enter-
prise in this respect not prohibited,
facilities are in existence whereby the
respective gains in time above stated
under possible reductions could eas-
ily be made and that almost without
cost, for during the summer months
there is regular ferry service between
Deerwood and Crosby and during the
winter months there is a regular
stage between the two towns, both
ferry and stage regularly meeting
Northern Pacific trains.

The concerns injuriously affected
by the above stated conditions are
among others:

1. Rogers, Brown Ore Co., operating the Kennedy mine at Cuyuna and the Meacham mine at Crosby, with administration offices at Crosby.
2. Interstate Exploration Co., operating the Armour No. 1 mine at Ironton, with administration offices at Crosby.
3. Iroquois Iron Co., operating the Armour No. 2 mine with administration offices at Crosby.
4. Inland Steel Co., operating the Thompson mine at Crosby, with administration offices at Crosby.
5. Crosby Exploration Co., with business offices at Crosby.
6. Bamberg Exploration Co., with business offices at Crosby.
7. Cuyuna Mille Lacs Mining Co., sinking a shaft within 2 miles of Crosby.

8. Iron Mountain Mining Co., sinking a shaft within 2 miles of Crosby.

9. O'Connell Assay Laboratory, jointly affected with all the foregoing concerns.

10. A population of 1,500 within a mile of Crosby postoffice.

11. All business concerns ordi-
narily to be found in towns of such
size.

12. 1,500 additional people with-
in a year.

The desired improvement is that
the present practice of sending Crosby
mail through the Deerwood post-
office be discontinued and that Crosby
mail be delivered directly from
Northern Pacific trains at Deerwood
to the Crosby postoffice, either by
means of the ferry across Serpent
lake or by means of the stage run-
ning between Deerwood station and
Crosby or by such other means as to
the department may seem advisable.
The petition to date has been signed
by the Rogers Brown Ore Co., Inter-
state Exploration Co., Iroquois Iron
Co., Inland Steel Co., Crosby Explor-
ation Co., Crosby Townsite Co., Cros-
by Iron Co., Whitmarsh Mining Co.,
Maple Leaf Mining Co., O'Connell As-
say Laboratory and others.

Dear Sir:

It gives me great pleasure to recommend your Peerless Steam Wash-
er. As the demonstration which you made at my home has thor-
oughly convinced me of the extremely fine qualities which your
washer has.

It washes colored clothes, as well as the white ones and cleans
them to my entire satisfaction, without the least bit of rubbing.

Among other things a large rag rug was washed also some paint-

STATE FAULTS IN SERVICE

Petitioners Make Suggestions for
Certain Improvements and Ask
They be Enforced

Crosby, Minn., November 10.—
There is being circulated in Crosby
a petition signed by business men re-
garding the present mail facilities
at Crosby, the list of concerns ad-
versely affected thereby and the sug-
gestions for improvement.

All Crosby mail, says the petition,
passes through the postoffice at Deer-
wood, Minn. Mail is distributed at
Crosby 9:30 A. M. and 5 P. M., out-
going mails leave Crosby at 7 A. M.
and 1:30 P. M. All mail comes via
the Northern Pacific railway. A com-
parison of the train schedule shows
that it takes a letter from 15 and
½ hours to 27 hours to go from Deer-
wood to Crosby. In the four in-
stances given this time can be short-
ened from 3 ½ hours to 27 ½ hours.

The petitioners represent and
point out that were private enter-
prise in this respect not prohibited,
facilities are in existence whereby the
respective gains in time above stated
under possible reductions could eas-
ily be made and that almost without
cost, for during the summer months
there is regular ferry service between
Deerwood and Crosby and during the
winter months there is a regular
stage between the two towns, both
ferry and stage regularly meeting
Northern Pacific trains.

The concerns injuriously affected
by the above stated conditions are
among others:

1. Rogers, Brown Ore Co., operating the Kennedy mine at Cuyuna and the Meacham mine at Crosby, with administration offices at Crosby.
2. Interstate Exploration Co., operating the Armour No. 1 mine at Ironton, with administration offices at Crosby.
3. Iroquois Iron Co., operating the Armour No. 2 mine with administration offices at Crosby.
4. Inland Steel Co., operating the Thompson mine at Crosby, with administration offices at Crosby.
5. Crosby Exploration Co., with business offices at Crosby.
6. Bamberg Exploration Co., with business offices at Crosby.
7. Cuyuna Mille Lacs Mining Co., sinking a shaft within 2 miles of Crosby.

8. Iron Mountain Mining Co., sinking a shaft within 2 miles of Crosby.

9. O'Connell Assay Laboratory, jointly affected with all the foregoing concerns.

10. A population of 1,500 within a mile of Crosby postoffice.

11. All business concerns ordinarily to be found in towns of such size.

12. 1,500 additional people within a year.

The desired improvement is that the present practice of sending Crosby mail through the Deerwood postoffice be discontinued and that Crosby mail be delivered directly from Northern Pacific trains at Deerwood to the Crosby postoffice, either by means of the ferry across Serpent lake or by means of the stage running between Deerwood station and Crosby or by such other means as to the department may seem advisable. The petition to date has been signed by the Rogers Brown Ore Co., Interstate Exploration Co., Iroquois Iron Co., Inland Steel Co., Crosby Exploration Co., Crosby Townsite Co., Crosby Iron Co., Whitmarsh Mining Co., Maple Leaf Mining Co., O'Connell Assay Laboratory and others.

SANER VIEWS OF BAPTISM NOW HELD

Baptism Not a Fire Insurance.
Says Pastor Russell.

Pastor Russell Repudiates the Theories of the Dark Ages and Advises God's People to Return to the Teachings of the Lord and the Apostles.

LONDON TALKER. LANCET, Nov. 5.—"We have done those things which we ought not to have done and we have left undone those things which we ought to have done." All agree to this and agree also that "we have believed many things which we ought not to have believed and have left unbelieved many things which we ought to have believed," said Pastor Russell.

Saner Views Now Held
Christian-Disciples still theoretically say that everybody not immersed in water is still in sin and bound for eternal torture, although this is not the logic of their teachings. Our Baptist friends no longer believe that only those who have been immersed in water constitute the one "Church of the living God whose names are written in heaven," and that these alone will be saved. Nevertheless, this is still the Baptist theory, and for this reason our Baptist friends still invite only the immersed to the Lord's Supper. Evidently the Apostolic teaching of Baptism got lost. Human speculation and theories buried it in rubbish. In Tertullian's day the Disciple view prevailed, that water baptism cleansed from sin. At that time it was customary to postpone baptism until death was supposed to be near—that all sins up to date might be washed away. Thus it was in Constantine's day. Later came St. Augustine with a different proposition, which swept everything before it. His claim was more nearly that of the Baptists, that only the Church would be saved from eternal torture and that baptism is the door into the Church. Thereafter in faint immersion became popular.

Later our Roman Catholic friends declared immersion unnecessary—that a few drops of water would be equally efficacious as protection against the fires of eternal torture. Sentiment ran so strong that it became the custom to perform a sprinkling of an unborn child—in *utero*—if there were any fear that it would not be born alive.

"John's Baptism" Not For Us
Repudiating all the theories of the Dark Ages, God's people should return to the instructions given by the Lord and the Apostles. A careful examination shows not a single reference to infant baptism in the New Testament. On the contrary, only believers were instructed to be baptized.

Two baptisms are noted, "John's Baptism" and Christ's. The first was for the remission of sins and was applicable to all Jews. By it such Jews as had been living in open sin renounced the sin, and returned to harmony with God, under the Law Covenant. Such as thus sincerely returned to Moses were ready to accept Christ as the antitype and by faith were transferred from Moses to Christ—from the house of servants to the house of sons. (Heb. iii, 5, 6.) These at Pentecost became really, officially recognized as the Church of Christ.

Subsequently Gentiles were invited to be baptized into membership in the Body of Christ, the Church. "John's Baptism" was not preached to them because they did not belong to the holy nation which originally was "baptized into Moses in the sea and cloud." The Gentiles, on the contrary, were aliens, strangers, to the commonwealth of Israel. They were not to come into Christ, through Moses, but to be baptized directly into Christ.

Gentiles Baptized Into Christ
The true theory of Baptism does not exclude sanctity. Methodists, Presbyterians, Congregationalists, Lutherans, Catholics, from the one, true Church which is the Body of Christ; neither does it admit to membership in the true Church all who have been immersed into water. Water immersion is merely the symbol or picture of the real immersion. In order to be members of Christ, members of the Church which is the Body of Christ, we must be immersed into Him, not by water immersion. Hearken to the Apostle's statement: "So many of you as were baptized into Jesus Christ (into membership in His Body, the Church) were immersed into His death." (Romans vi, 3.)

Our immersion into Christ's death begins with the consecration of our wills, our hearts, our all. Then and there God through Christ accepts the consecration and we are reckoned dead according to the flesh and begotten of the Holy Spirit to newness of life as New Creatures in Christ. When the last member of this consecrated "little flock" shall have passed into death the baptism of the Church into Christ's death will be completed and all the faithful ones will then share in "His resurrection" to glory, honor and immortality—"the first (or chief) resurrection."

"His death" was different from the death of others in that He did not die as a "sinner, but as a Sacrifice." Our being baptized into His death signifies that the Church also die, not as sinners, but as sacrifices.

JOHN CARLSON

GENIUS OF SCHUBERT.

Whatever the Great Composer Felt Flowed Forth in Music.

Whenever Schubert happened to turn over the leaves of a volume of poetry, verses that pleased him would become clothed in melody. They would sing themselves in his mind with superb accompaniment, noble in rhythm and rich in harmonies. If paper happened to be within reach the song would at once be written down.

One July evening in 1826, after a long walk, the composer strolled into a beer garden and found a friend sitting at a table with a volume of Shakespeare. Schubert picked up the book and read the song in "Cymbeline," "Hark, Hark, the Lark." The beautiful melody, with its accompaniment, as we now have it instantly dashed upon him, and he wrote it down on the spot upon staves hastily scrawled across the back of a bill of fare. In the course of the same evening he set to music the drinking song in "Antony and Cleopatra" and the verses "Who is Sylvia," in "Two Gentlemen of Verona."

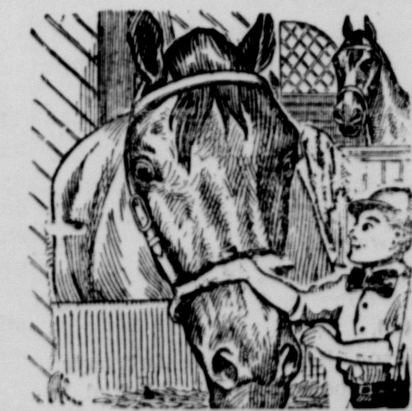

And all this exquisiteness came from the son of a cook and poor mechanic, whose chief delight as a baby was to pick out melodies on a rusty old piano in his father's shop and whose acme of human bliss was reached when he was taken to a neighboring joiner's to try his infant hands on a fine new instrument. He was a charity pupil in the Imperial School of Music, but neither its orphan asylum atmosphere, the two meals a day nor the ice cold piano with the ice cold instruction dampened the little Franz's ardor. Whatever he felt flowed forth in music.—New York World.

Helpless.

It was a dark morning, and Mr. Dorkins was groping around in the basement when somebody suddenly flashed a dark lantern on him.

Mechanically he threw up his hands "I'm the gas meter inspector," explained the intruder.

Whereupon Mr. Dorkins held his hands up still higher.—Chicago Tribune.

HELPFUL HINTS ON HAIR HEALTH.

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store.

KEPT TO THE POINT.

Interruptions Didn't Make Blaine Lose His Self Possession.

In his "Yesterday With the Fathers" Dr. William Wilberforce Newton tells an incident which, fortunately escaping tragedy, serves nevertheless to illustrate the imperturbable self possession of a famous statesman.

Upon one occasion the Hon. James G. Blaine addressed a large concourse of people. There was a great wooden platform, on which were the speakers and the officers and a famous German band. I had been invited to make the opening prayer. After this Mr. Blaine began his address with the following sentence:

"I am opposed to the election of Samuel J. Tilden."

Just then some one in the crowd called out, "Hurrah for James G. Blaine!" and then a great ovation greeted the Republican leader. At its close Mr. Blaine began again by remarking:

"As I said a few moments ago, I am opposed to the election of Samuel J. Tilden."

Just then a terrible grinding, crushing, earthquake-like sensation was felt by all of us who were seated on the platform, and the entire staging went down with a rush. We were tumbled one over another, speakers, officers, German band and all, and for myself I felt as Korah, Dathan and Abiram probably felt when the earth opened and swallowed them up alive in the pit.

Mr. Blaine and I happened to be wound round together, legs and arms in inextricable confusion, and as we were trying to worm ourselves out of the melee he said to me:

"Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"

"There is, Mr. Blaine," I replied, "and there is also an article about descending!"

When the debris was removed and a place made for the speaker he began again by saying, for the third time:

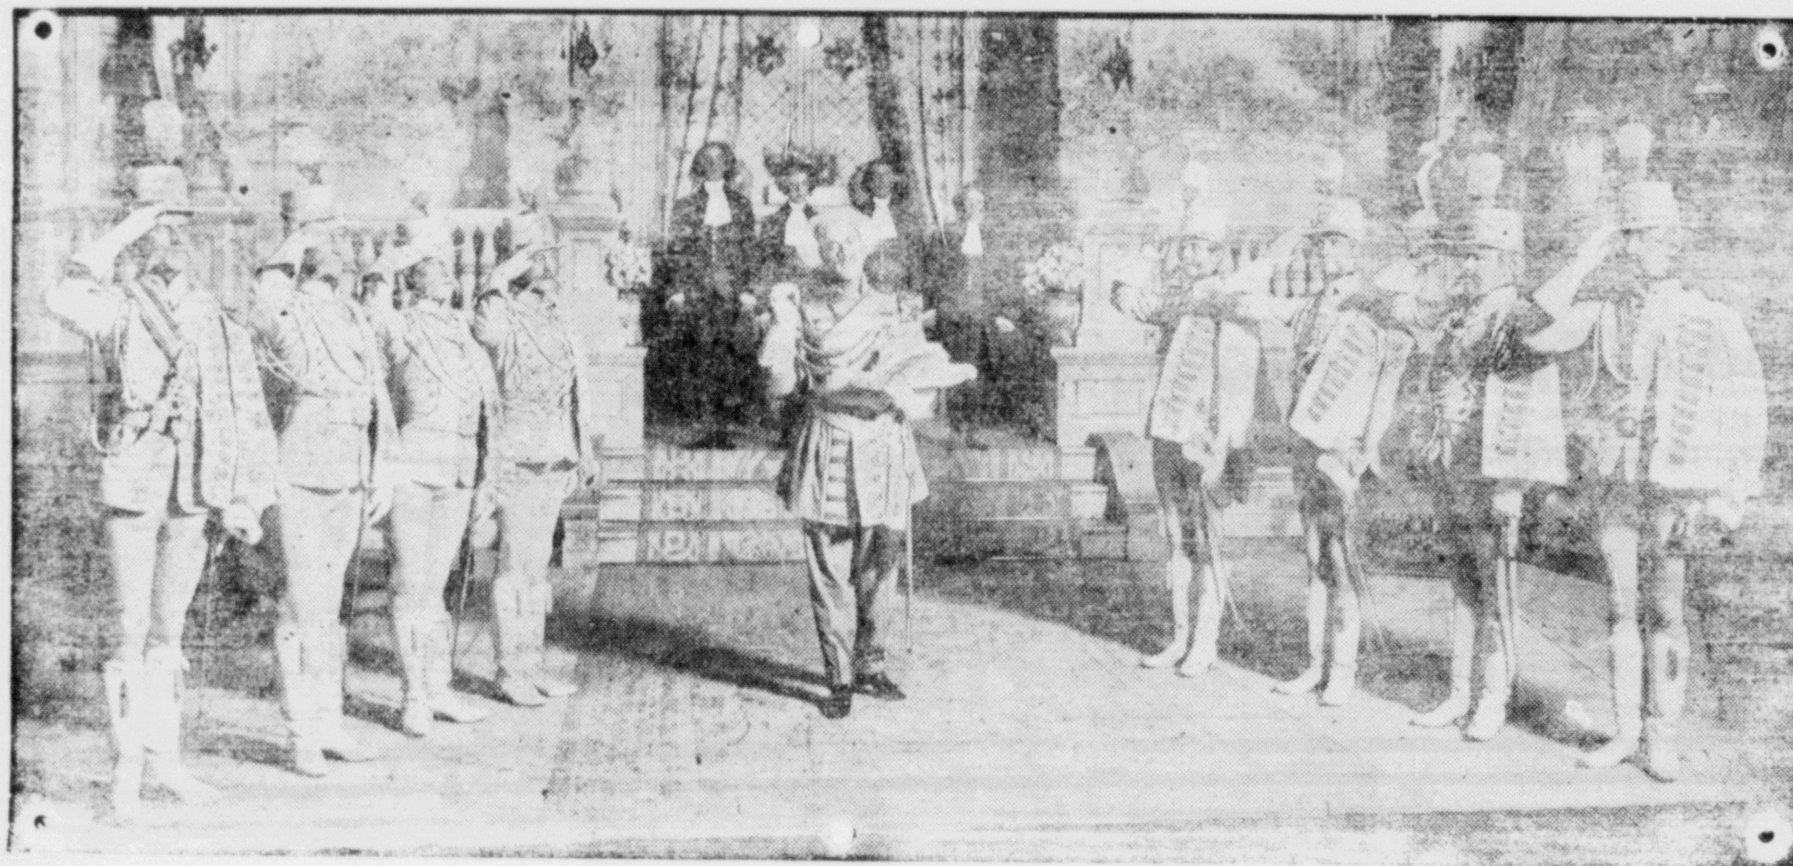

"Notwithstanding these many interruptions, I am as opposed as ever to the election of Samuel J. Tilden."

The Bronx in New York.

Even in New York comparatively few residents know the origin of the name Bronx. It came from an early settler, Jonas Bronck, who, with two companions, sailed from Holland in the private armed ship Fire of Troy and arrived in New Amsterdam in July, 1639. Bronck at once obtained from the Dutch West India company a grant of 500 acres of land in what is now Westchester county, "lying between the Great Kill" (the Harlem river) "and the Abnashung" (the Bronx river). An old "Tracing of Broncksland" is still preserved in the office of the secretary of state at Albany, and the location of Jonas Bronck's house is shown thereon.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store.

KEPT TO THE POINT.

Interruptions Didn't Make Blaine Lose His Self Possession.

In his "Yesterday With the Fathers" Dr. William Wilberforce Newton tells an incident which, fortunately escaping tragedy, serves nevertheless to illustrate the imperturbable self possession of a famous statesman.

Upon one occasion the Hon. James G. Blaine addressed a large concourse of people. There was a great wooden platform, on which were the speakers and the officers and a famous German band. I had been invited to make the opening prayer. After this Mr. Blaine began his address with the following sentence:

"I am opposed to the election of Samuel J. Tilden."

Just then some one in the crowd called out, "Hurrah for James G. Blaine!" and then a great ovation greeted the Republican leader. At its close Mr. Blaine began again by remarking:

"As I said a few moments ago, I am opposed to the election of Samuel J. Tilden."

Just then a terrible grinding, crushing, earthquake-like sensation was felt by all of us who were seated on the platform, and the entire staging went down with a rush. We were tumbled one over another, speakers, officers, German band and all, and for myself I felt as Korah, Dathan and Abiram probably felt when the earth opened and swallowed them up alive in the pit.

Mr. Blaine and I happened to be wound round together, legs and arms in inextricable confusion, and as we were trying to worm ourselves out of the melee he said to me:

"Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"

"There is, Mr. Blaine," I replied. "and there is also an article about descending."

When the debris was removed and a place made for the speaker he began again by saying, for the third time:

"Notwithstanding these many interruptions, I am as opposed as ever to the election of Samuel J. Tilden."

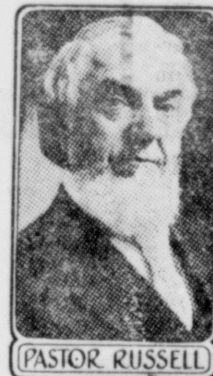

The Bronx in New York.

Even in New York comparatively few residents know the origin of the name Bronx. It came from an early settler, Jonas Bronck, who, with two companions, sailed from Holland in the private armed ship Fire of Troy and arrived in New Amsterdam in July, 1639. Bronck at once obtained from the Dutch West India company a grant of 500 acres of land in what is now Westchester county, "lying between the Great Kill" (the Harlem river) and the Ahquahung (the Bronx river). An old "Tracing of Broncksland" is still preserved in the office of the secretary of state at Albany, and the location of Jonas Bronck's house is shown thereon.

SANER VIEWS OF BAPTISM NOW HELD

Baptism Not a Fire Insurance, Says Pastor Russell.

Pastor Russell Repudiates the Theories of the Dark Ages and Advises God's People to Return to the Teachings of the Lord and the Apostles.

LONDON TABER NACLE, LANCASTER Gate W., Nov. 5.—"We have done those things which we ought not to have done and we have left undone those things which we ought to have done." All agree to this and agree also that "we have believed

many things which we ought not to have believed and have left unbelieved many things which we ought to have believed," said Pastor Russell.

Saner Views Now Held
Christian-Disbelievers still theoretically say that everybody not immersed in water is still in sin and bound for eternal torture, although this is not the logic of their teachings. Our Baptist friends no longer believe that only those who have been immersed in water constitute the one "Church of the living God whose names are written in heaven," and that these alone will be saved. Nevertheless, this is still the Baptist theory, and for this reason our Baptist friends still invite only the immersed to the Lord's Supper. Evidently the Apostolic teaching of Baptism got lost. Human speculation and theories buried it in rubbish. In Tertullian's day the Disciple view prevailed, that water baptism cleansed from sin. At that time it was customary to postpone baptism until death was supposed to be near—that all sins up to date might be washed away. Thus it was in Constantine's day. Later came St. Augustine with a different proposition, which swept everything before it. His claim was more nearly that of the Baptists, that only the Church would be saved from eternal torture and that baptism is the door into the Church. Thereafter in baptism immersion became popular.

Later our Roman Catholic friends declared immersion unnecessary—that a few drops of water would be equally efficacious as protection against the fires of eternal torture. Sentiment ran so strong that it became the custom to perform a sprinkling of an unborn child—in utero—if there were any fear that it would not be born alive.

"John's Baptism" Not For Us

Repudiating all the theories of the Dark Ages, God's people should return to the instructions given by the Lord and the Apostles. A careful examination shows not a single reference to infant baptism in the New Testament. On the contrary, only believers were instructed to be baptized.

Two baptisms are noted, "John's Baptism" and Christ's. The first was for the remission of sins and was applicable to all Jews. By it such Jews as had been living in open sin renounced the sin, and returned to harmony with God, under the Law Covenant. Such as thus sincerely returned to Moses were ready to accept Christ as the antitype and by faith were transferred from Moses to Christ—from the house of servants to the house of sons. (Heb. iii, 5, 6.) These at Pentecost became really, officially recognized as the Church of Christ.

Subsequently Gentiles were invited to be baptized into membership in the Body of Christ, the Church. "John's Baptism" was not preached to them because they did not belong to the holy nation which originally was "baptized into Moses in the sea and cloud." The Gentiles, on the contrary, were aliens, strangers, to the commonwealth of Israel. They were not to come into Christ, through Moses, but to be baptized directly into Christ.

Gentiles Baptized Into Christ
The true theory of Baptism does not exclude saintly Methodists, Presbyterians, Congregationalists, Lutherans, Catholics, from the one, true Church which is the Body of Christ; neither does it admit to membership in the true Church all who have been immersed into water. Water immersion is merely the symbol or picture of the real immersion. In order to be members of Christ, members of the Church which is the Body of Christ, we must be immersed into Him, not by water immersion. Hearken to the Apostle's statement: "So many of you as were baptized into Jesus Christ (into membership in His Body, the Church) were immersed into His death." (Romans vi, 3.)

Our immersion into Christ's death begins with the consecration of our wills, our hearts, our all. Then and there God through Christ accepts the consecration and we are reckoned dead according to the flesh and begotten of the Holy Spirit to newness of life as New Creatures in Christ. When the last member of this consecrated "little flock" shall have passed into death the baptism of the Church into Christ's death will be completed and all the faithful ones will then share in "His resurrection" to glory, honor and immortality—"the first or chief resurrection."

"His death" was different from the death of others in that He did not die as a "sinner, but as a Sacrifice." Our being baptized into His death signifies that the Church also die, not as sinners, but as sacrifices.

JOHN CARLSON

GENIUS OF SCHUBERT.

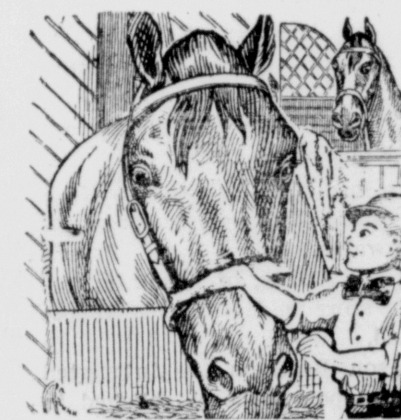

Whatever the Great Composer Felt Flowed Forth in Music.

Whenever Schubert happened to turn over the leaves of a volume of poetry, verses that pleased him would become clothed in melody. They would sing themselves in his mind with superb accompaniment, noble in rhythm and rich in harmonies. If paper happened to be within reach the song would at once be written down.

One July evening in 1826, after a long walk, the composer strolled into a beer garden and found a friend sitting at a table with a volume of Shakespeare. Schubert picked up the book and read the song in "Cymbeline," "Hark, Hark, the Lark." The beautiful melody, with its accompaniment, as we now have it instantly flashed upon him, and he wrote it down on the spot upon staves hastily scrawled across the back of a bill of fare. In the course of the same evening he set to music the drinking song in "Antony and Cleopatra" and the verses "Who Is Sylvia," in "Two Gentlemen of Verona."

And all this exquisiteness came from the son of a cook and poor mechanic, whose chief delight as a baby was to pick out melodies on a rusty old piano in his father's shop and whose acme of human bliss was reached when he was taken to a neighboring joiner's to try his infant hands on a fine new instrument. He was a charity pupil in the Imperial School of Music, but neither his orphan asylum atmosphere, the two meals a day nor the ice cold piano with the ice cold instruction dampened the little Franz's ardor. Whatever he felt flowed forth in music.—New York World.

Helpless.
It was a dark morning, and Mr. Dorkins was groping around in the basement when somebody suddenly flashed a dark lantern on him. Mechanically he threw up his hands "I'm the gas meter inspector," explained the intruder. Whereupon Mr. Dorkins held his hands up still higher.—Chicago Tribune.

N. P. TO BUILD DOCK IN A YEAR

George T. Slade, Vice President of Road, Announces Company Will Build Superior Dock

TO HANDLE CUYUNA RANGE ORE

Believed the Dock Will be Located on N. P. Property North of the Nemadji River

The Northern Pacific railroad will build an ore dock in Superior within a year, according to Vice President George T. Slade.

Where the dock will be located is not announced by the Northern Pacific officials at this time, but it has been given out in the past that the structure will be located on the Northern Pacific property just north of the Nemadji river.

The new dock will be used for loading iron ore from the Cuyuna range. The Northern Pacific road hopes to secure a large portion of the ore hauling business of the Cuyuna range in the future. The road is now building a five mile extension south of Deerwood to the section thirty mine which will be a shipper in 1912. It is rumored that other extensions are under way and that the section thirty spur may tap most of

the south range, some asserting it will run to Randall.

The road is assured of much ore business because of the fact that it holds the title to much of the ore bearing land on the range through its subsidiary, the Northwestern Development company. Mining companies developing this property are compelled by their contracts to ship the ore over the Northern Pacific line to Superior.

Work on the 800 foot extension to the Soo ore dock will commence early in December. Contracts for the dock will be let shortly in order that the structure may be ready for use by the time navigation opens next season.

Sealed Bids

Attracted by the uproar in the backyard where dogs and turkeys were in wild confusion Bierhaus peered out in the moonlight and saw the shadowy figure of a shaggy wolf. He grasped his gun and sallied forth, but was unable to shoot for some time as the dogs and the animal were too near each other.

Eventually the wolf was corralled in a corner and Bierhaus fired and killed him at the first shot. The state pays a bounty of \$7.50 and the county one of \$3.50 on the animal after the proper certificate has been made by the town clerk.

HERE is no line of goods in a store in which there is so much speculation as in the garment line. What promises to be a popular style frequently does not win favor and what sometimes seems to be without demand often is the most in favor after the season opens.

At the beginning of the present coat season the plush and caracul coats, seemed to many, to have lost favor and merchants cancelled their orders. We had a goodly quality purchased and believed that they would be much demanded which has proven to be true.

The women of the country wisely demanded these coats and there is now a shortage as the factories cannot supply the demand. We, fortunately believed that these meritorious garments would be demanded and purchased many besides reordering more of them. We now have our reorders and can show you the prettiest of these splendid wearing coats.

We never recommend a cheap plush coat—they are not satisfactory—but we do advise the better ones at prices which will of decided interest to you. We have the best plush coats money can buy and at reasonable prices too. Let us show you.

ACTIVITY AT THE Y. M. C. A.

Class in Public Speaking Organized—Boys Department Re-established—Bible Lectures

Commencing next Monday evening, November 13th, the Y. M. C. A. will conduct a class in public speaking. This class will take up a text book on public speaking and the class hour will consist of recitations on lessons assigned in the text and in practice in speaking. Most men find it necessary to express their views on some subject before a gathering of their fellow men and this course is especially for them that they may be at ease and able to express their thoughts accurately. The course consists of twelve lessons for which a nominal fee will be charged. Rev. Charles Fox Davis will have charge of the class. All interested are asked to see the secretary and enroll as soon as possible.

When the association was re-opened June 1st, 1910, the boys' department was discontinued for a time. The association has now decided to re-establish the department for the boys and will do so next week. This new arrangement is for boys between the ages of 12 and 17 and will give them gymnasium and bath privileges twice a week after school. All boys who were members December 1st 1909 will have their tickets extended from November 13th, 1911. Boys may join this week after school from 4 to 5:30 and Saturday morning.

Beginning November 20th, Rev. G. P. Sheridan will deliver a series of Bible lectures for men at the Y. M. C. A. The series will take in the entire Bible under the title, "How to Master the English Bible." Classes meet every Monday night. No fee or collection will be charged. All men are invited to attend whether members of the association or not. Lectures will begin promptly at 7:00 and close promptly at 8:00.

A Turkish National Hymn.
The Ottoman patriotic hymn, of which the following lines are a literal translation of the first two stanzas, was during the last reign rigorously tabooed. On the proclamation of the constitution, however, the tune to which it was set was everywhere performed by military bands to enthusiastic crowds composed of Christians as well as Moslems, and errand boys filled the streets of the capital with its whistled strains.

To the glory of our country dear are all our efforts vowed.
On the ashes of her sons is built each frontier fortress proud.
Yea, as Ottomans we live or die, our badge the crimson shroud.

CHORUS
As martyrs on the battlefield our hearts desire we gain.
We're Ottomans; our lives we give high glory to attain!

Still the blood stained sword unsheathed our banners blazoned bear.
The fear of death upon our hills and valleys walked hath ne'er,
But a lion at each corner of our empire watcheth e'er.

Chorus: As martyrs, etc.

Peculiar Table Customs.
In a book entitled "Domestic Manners of the Middle Ages" we are told that in those days dinner tables were covered by a "nappe," or tablecloth. Upon it were placed a large saltcellar, bread and cups for wine, but no knives or plates. The reason for the absence of the knives arose from the common practice in vogue of people carrying their own knives in a sheath attached to their girdle. In an early work, written by Lydgate—"Rules For Behavior at Table"—the guests are told to bring no knives unscoured to the table, which can only mean that each one was to keep his own knife—that is, the one he carried with him—clean.

As a Critic Saw Browning.
There was marked vulgarity about Browning, particularly in his accent and in the tone of his voice and a certain indescribable savor of syncopation of a man eager to be of a grade to which he did not belong, but the poet was there—the poet's keen eye, the poet's heart, obvious in his remarks and descriptions.—Memoirs of John Churton Collins.

A Stock Story.
"When I was a barefoot lad," said Dustin Stax, "I had to spend a good deal of time minding the stock on father's farm. I'll never forget the day when father told me to take a rope and hold a couple of bull calves."
"What did they do?"
"They scorched my hands with the rope and then turned around and stepped on me."
"Unruly disposition?"
"No; wonderful instinct. They recognized me at a glance as a small stockholder."—Washington Star.

His Hard Luck.
Jones—Brown is an unlucky dog. Smith—How's that? Jones—His object in marrying was to get out of a boarding house. Smith—Well? Jones—Now his wife is running one to support the family.

SUPREME COURT EXPEDITION

Reform in Rules Inaugurated by Chief Justice White.

A reform in the rules of the supreme court of the United States to expedite cases awaiting the court's action, sometimes delayed two or three years, has been inaugurated by Chief Justice White. Hereafter the time for oral argument of cases will be three hours instead of four.

A new rule provides for a "summary docket," on which will be placed cases which the court believes should be specially expedited. The court will arrive at a decision as to these after a motion has been presented to it to "affirm" a decision in a court below. Only half an hour will be allowed each side for argument of cases on the docket.

The court also reduced from one hour to forty-five minutes the time allowed for the argument of motions.

STOMACH TROUBLE GOES

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia Five Minutes After Taking Diapiesin.
There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapiesin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourdest acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 50-cent case of Pape's Diapiesin, then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the stomach, belching of gas and eructations of undigested food, water brash, nausea, headache, biliousness and many other bad symptoms; and, besides, you will not need laxatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas, or your food doesn't seem to fit, why not get a 50-cent case from your druggist and make life worth living? Absolute relief from stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and besides, one 50-cent case is sufficient to cure a whole family of such trouble.

Surely, a harmless, inexpensive preparation like Pape's Diapiesin, which will always, either at daytime or during night, relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

Repatee.

A Professional Paradox.

The study of science is not necessarily all gray. It may have its rosy patches. It is said that a learned professor of Heidelberg forbade his students the repetition of a certain experiment.

"But," they protested, "it has always been successful."

"Nevertheless," he said, "its position among experiments is absolutely untenable from an intellectual point of view."

The boys stared.
"The thing may answer very well in practice," said the professor, "but it is not sound in theory."—Youth's Companion

BUCHANAN'S

THE BEAUTIFUL

He who has erected a beautiful house has blessed a whole community in building it. No man wants to build an ugly house thereafter, but strives to build a handsome. Little by little it lifts the people from the low grade of insensibility to beauty, to appreciating it and following it. I think every man who has money should see to it that the town in which he lives is steadily growing more and more beautiful.
—Henry Ward Beecher.

DO YOUR DUTY TODAY.

Happy the man, and happy he alone,
He who can call today his own;
He who, secure within, can say,
Tomorrow, do thy worst, for I have lived today.
—Dryden.

Pretty Dirty.

Once a year the newsboys of London are given an outing some place on the Thames river where they can swim to their hearts' content. As one little boy was getting into the water his little friend said:
"Johnnie, you're pretty dirty!"
"Yes," replied Johnnie. "I missed the train last year."—Success Magazine.

Corrected.

The Artist—Just a little daub of mine, you see, dear madam. Miss Gush (gushingly)—Oh, no! You are entirely too modest. I should call it quite a big daub.—Puck.

Lost In Practice.

"She is a woman with a very strong mind."
"Not as strong as it was."
"How do you know?"
"Just heard her giving her husband a piece of it."—Philadelphia Bulletin.

The Shame of Defeat.

"Dear professor," wrote a mother to a schoolteacher, "please excuse Freddie when he ought to be at school. Yesterday he contracted a black eye, and he is ashamed. Yours, etc., Mrs. A. Sharp."—Lippincott's.

Right In Their Line.

"There are two authors whom every chiropractor ought to have in his library."
"Who are they?"
"Foote and Bunyan, of course, stupid."—Baltimore American.

A Puzzler.

"Pop, you know everything, don't you?" said little Joe.
"Some very few things in the universe might have escaped me," answered the parent modestly, "but they are hardly worth mentioning. What do you want to know?"
"I want to know," replied little Joe, "what relation an august king is to a May queen?"—St. Paul Pioneer Press.

The Ancient Incubator.

Few of those who wrestle with the chicken incubator problem and often fail to solve it realize how old an art they are struggling to master. Thousands of years ago Egyptians in one part of the world and the Chinese in another had the art of incubating eggs so highly developed that it was an hereditary profession, the secret of the successful processes being guarded with religious sacredness and handed down from father to son. The odd stoves called "mammals" that the Egyptians used as incubators date back to remote antiquity. Even before the French revolution the Paris markets had incubator chickens, thanks to the Bonnemain apparatus, which was invented in 1777.

A Financial Tip.

"If I should put \$1,000 in a bank that paid compound interest at the rate of 3 per cent, how long would it take for the principal to double?"
"It never would double. The bank would bust."—Chicago Record-Herald.

Wanted a Chance.

"I thought you said when we were married that ours would be a life partnership," she said.
"So I did, my dear," he replied. "But I didn't insist on my being the silent partner."—Detroit Free Press.

Tramping Round Union of South Africa

A tremendous task is being undertaken by J. Scott, formerly of the Argyle and Sutherland highlanders, who has just arrived at Volksrust on a journey on foot around the Union of South Africa. He left Durban on Nov. 15 and since then has covered a distance of some 650 miles, including a detour into Zululand and Swaziland. The number of towns and postal offices he has visited on his tramp to date is 632. A Zulu boy accompanies him, carrying a traveler's kit containing hairdressers' accessories, with which the man is making his living on the way.

Some Facts Proven to and Acknowledged by Many Brainerd Women Concerning the

Peerless Steam Washer

Which is on Exhibition in

McNamara's Furniture Store

All are Invited to inspect this Household Necessity

Dear Sir:

It gives me great pleasure to recommend your Peerless Steam Washer. As the demonstration which you made at my home has thoroughly convinced me of the extremely fine qualities which your washer has.

It washes colored clothes, as well as the white ones and cleans them to my entire satisfaction, without the least bit of rubbing. Among other things a large ragrug was washed also some painters overalls and childrens colored clothes. They all came out perfectly and looked very nice.

In view of the fact that the washer does such fine work I will order one of them.

Yours truly,

MRS. A. M. WALLACE.
